

CASIO SES-3000

OPERATION MANUAL

**Please note: this model has a journal printer in addition to the receipt printer. For questions regarding the journal printer please contact TotalPOS Solutions on 03 3661090 or enquiries@totalpos.co.nz*

IMPORTANT

If you see a * appear in the top right hand corner of the display, it means the Electronic journal is full. To avoid error messages when it is full, you need to clear the EJ as soon as possible after finishing the transaction. (see 14, page 7)

Ensure register is turned to REG mode

1. Making a Sale

1. Enter the price of the item
2. Press the department the item belongs to
3. Repeat steps 1 and 2 until all purchased items are processed
4. Press SUBTOTAL for the total amount due
5. Enter amount of cash given by customer and press the TOTAL or CASH key. If the customer is paying by cheque or eftpos then instead of pressing CASH press CHQ or EFTPOS
6. The amount of change to be given to the customer will display on the screen and receipt will print if turned on.

If the prices are programmed in for specific items then the corresponding department key will be pressed, instead of the price and the department key.

2. Multiple Tender

1. When your customer pays by more than one method (eg part cash, part eftpos), first enter the amount to be paid by the first method
2. Press the key corresponding to the method of payment (eg CASH)
3. Enter the amount to be paid by the second method
4. Press the key corresponding to the second method of payment (eg EFTPOS)

3. Making Multiple Sales Of Same Product

1. Enter the number of items you are selling (eg 4)
2. Press the X key
3. Press the dollar amount of each item (eg 150)
4. Press the department of the item you are selling (eg pie)
5. Press SUBTOTAL to give the total amount due
6. Enter amount of cash given by the customer and press the TOTAL or CASH key. If the customer is paying by cheque or eftpos then instead of pressing CASH press CHQ or EFTPOS
7. The amount of change to be given to the customer will display on the screen and receipt will print if turned on.

If the prices are programmed in for specific items then the corresponding department key will be pressed, instead of the price and the department key.

4. Clear the last item rung on

1. To clear the last item (before the subtotal key is entered) press the ERR CORR/CANCEL key.

4a. Making Corrections To A Transaction

1. Press the Up or Down Arrow. You'll notice you can now select an item. Arrow to the item you wish to remove

PROGRAMMING INDEX

1. Price Changes
2. Name Changes
3. Changing/Adding Clerk Names
4. Programming Time and Date
5. Reports

Programming Notes:

The new Casio range of cash registers are the most advanced ECR system on the market, it incorporates easy programmability with complex functions, to form a system that can suit any retail requirements. While basic programming changes can be performed by the end user (price changes and descriptions), it is advised that more advanced features should be programmed by an authorised CASIO dealer. The use of specialised back up and programming software enables us to safeguard your valuable data before changes are made. If you are unsure about the steps you are about to attempt, we suggest you seek professional help from our support staff.
